

Pollution Detector by FIA for Nitrate, Ammonia & Phosphate

S - 8060

(NO₂⁻ / NO₃⁻) Analyzer

S - 8061

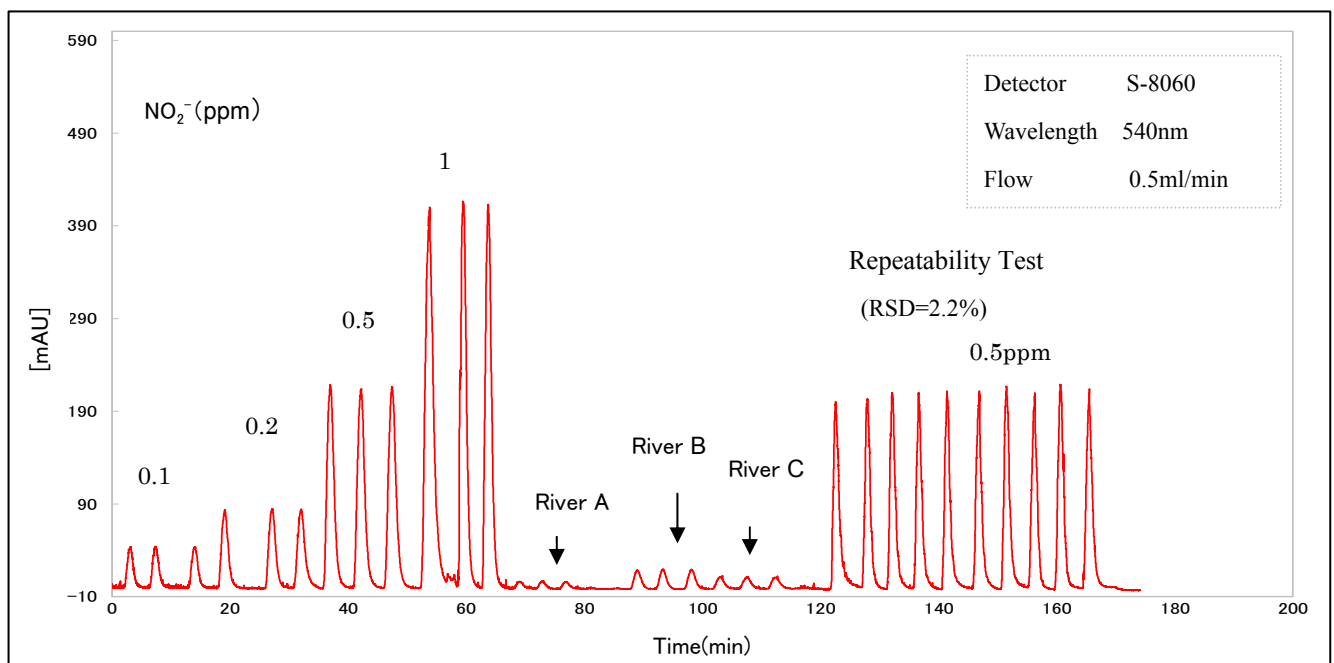

(NH₃ / NH₄⁺) Analyzer

S - 8062

(PO₄³⁻) Analyzer

● Feature

- Outdoor measurement is possible by the battery(DC12V).Adopting USB interface, it's easy to be controlled by a PC
- In order to avoid the air bubble trouble, quartz flow cell is adopted
- Having 4 pumps inside, pre-processing and other complex, versatile measurements are possible

Flow signal of standard solution and river water, (Repeatability Test)
